FACT SHEET

SNAPSHOT of 2025 RESULTS

Who We Are

Founded in 1980, the Norwegian Afghanistan Committee (NAC) is a membership-based solidarity organisation operating in Norway and Afghanistan. NAC is governed by an elected Board, and its Secretariat is based in Norway.

NAC works in partnership with Afghan people across Afghanistan and has maintained a continuous presence through periods of crisis and instability. This long-term, solidarity-based engagement enables NAC to support rural communities in working towards its vision:

"A peaceful Afghanistan where communities overcome poverty and aid dependency and where people live in an inclusive and equitable society."

For NAC, solidarity embodies the values of equality, inclusivity, friendship, and respect, which form the foundation of our identity and guide our behaviour. These values are reflected in our actions and create impact through trust, transparency, responsibility, and positive change.

OUR PROGRAMME

AREAS & WHERE WE WORK

Afghanistankomiteen
Norwegian Afghanistan Committee

2025

PATHWAY 1

Lifelong Learning

Lifelong learning opportunities that enable people in rural, hard-to-reach, and income-poor communities to improve their access to and quality in education.

PATHWAY 2

Health and Rehabilitation

Expand access for income-poor women, children, adolescent girls, and persons with disabilities and disabling health conditions to quality health and rehabilitation services.

PATHWAY 3

Food Security and NRM

Improved food security, sustainable livelihoods, self-reliance, and resilience to climate change, natural hazards, and socioeconomic shocks among low-income rural households.

WHERE WE WORK

23
Provinces

Expanded reach across 134 districts, prioritising the most marginalised and hard-to-reach communities.

Towards achieving the following Sustainable Development Goals:

No Poverty

Zero Hunger

Health and Well-Being

Quality Education

Gender Equality

Clean Water and Sanitation

Decent Work and Economic Growth

Reduced Inequalities

Sustainable Communities

Responsible Production

Climate Action

Life on Land

Peace, Justice, and Institutions

NAC's reach has expanded significantly over the past decade. In 2013, NAC implemented activities in ten provinces. Over the past 12 years, NAC's reach and project portfolio has gradually increased along with the diversity of our donor pool. In 2025, NAC's activities reached communities in 23 provinces - the largest reach in NAC's history.

Activity highlights

Pathway 1: Lifelong Learning

21 434

Children and youth benefited from NAC's lifelong learning initiatives

7 369 Girls 14 065 Boys

1 472

Educators trained and supported

547 Female 925 Male

24 247

Shura and community members mobilised to support education and rights of persons with disabilities

9 874 Female 14 373 Male

Pathway 2: Health and Rehabilitation

141 031

Patients received healthcare and rehabilitation services at NAC's health centres

90 656 Female 50 375 Male

1 130

Healthcare professionals received education and training

518 Female 612 Male

80 017

Women, newborns, and children received healthcare services at NAC's maternal clinics

Pathway 3: Food Security and Natural Resource Management (NRM)

17 817

Households received food security and livelihood assistance

Representing 174 963 household members

21 053

Smallholder farmers trained and provided with agricultural inputs

3 767 Female 17 286 Male

480

Women-led microbusinesses and NRM, and DRR committees established and strengthened

42

Agro-based infrastructure projects built or rehabilitated

12 682

Natural disaster-affected population provided with shelter, dignity kits, and psychosocial support

11 025 Female 1 657 Male

4 247

Temporary jobs created through NAC programmes

420 Female 3 827 Male

Cross-cutting themes

Dialogue skills

7 511

Community members trained in dialogue skills

2 687 Female 4 824 Male

Environmental protection

376 852

Saplings produced through NAC's environmental protection initiatives

Psychosocial support

6 395

People received psychosocial training and support

5 855 Female 540 Male

Measuring results

Key findings from the ERA-II Midline and the Disability Inclusion Endline.

Improved food security

Households with acceptable or borderline food consumption scores

Strengthened resilience to natural disasters

Partner communities reporting resilience to natural disasters

Improved agricultural productivity

Share of supported farming households reporting an increase in productivity, baseline vs. midline

Patients report improved health condition

Change in health status after treatment

88% reported improved health status

■ 41% significant ■ 47% some ■ 12% none

Average patient satisfaction: **92.5%**

Improved learning outcome of children

Preparatory-class students with disabilities, learning proficiency test
